DETAILED ACTION

Election/Restriction

1. In Paper No. 4, mailed 12/06/00, a restriction requirement was made. Paper 5, received 12/26/00, indicated an election of Group III, claims 82-132, without traverse. Upon further consideration of the claimed invention the following species election is now required:
2. This application contains claims directed to the following patentably distinct species of the claimed invention: (1) claims 84, 113 and 124, types of fungal cells; (2) claims 86, 115 and 126, types of plant cells, (3) claims 92 and 119, types of plant cells; (4) claim 98, types of plant cells; (5) claim 100, types of constitutive promoters; (6) claim 102, types of inducible promoters; (7) claim 104, types of tissue specific promoters; (8) claims 127 and 131, types of polyhydroxyalkanoates used in methods; (9) claim 132, types of polyhydroxyalkanoates; and (10) claim 133, types of polyhydroxyalkanoates. From each group, 1-10, one species is to be chosen for consideration.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species from each group, 1-10, for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 82-83, 85, 87-91, 93-97, 99, 101, 103, 105-112, 114, 116-118, 120-123, 125 and 128-130 are generic.

Art Unit: 1635

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

3. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
